Notice of Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2002, 37 CFR 1.18 is proposed to be revised to change the patent issue fees as set forth below. As stated above, the final fees may be a different amount, and applicant should check the web site given above when paying the fee.

(a) Issue fee for issuing each original or reissue patent, except a design or plant patent:

By a small entity (Sec. 1.27(a))--\$655.00

By other than a small entity--\$1,310.00

(b) Issue fee for issuing a design patent:

By a small entity (Sec. 1.27(a))--\$235.00

By other than a small entity--\$470.00

(c) Issue fee for issuing a plant patent:

By a small entity (Sec. 1.27(a))--\$315.00

By other than a small entity--\$630.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas Martin on 7/11/02.

The application has been amended as follows:

In the Specification:

Page 31, after line 17, insert the following:

FIG. 82 is a further embodiment of a cervical spine single locking plate for use in stabilizing multiple segments of the spine--

In the Claims:

Claims 601-659 and 721-780 have been canceled.

It was noted during the telephone interview with Mr. Martin that claims 601-659 and 721-780 were seen to be directed to at least two species of plates which are patentably distinct from the species of the allowed claims. Therefore, in order to expedite prosecution of the instant application, claims which could have been restricted by the examiner were instead canceled without prejudice to their consideration in continuing application(s)

The following is an examiner's statement of reasons for allowance:

Claim 538-600 and 660-720 are allowable because the prior art fails to disclose or suggest:

With respect to claim 538, a plate with at least three bone screw receiving holes and a locking element recess, at least three of the bone screw receiving holes being positioned proximate the locking element recess so that a distance between the central longitudinal axis of the locking element recess and the central longitudinal axis of the bone screw receiving holes is less than the sum of the radii of the locking element recess and each of the bone screw receiving holes, respectively;

With respect to claim 569, a plate with a recess in the upper surface, the recess having a central longitudinal axis, the recess having at least three bone screw receiving holes extending through the plate from the upper surface through the lower surface, and the recess having a bore adapted to receive at least a portion of a locking element for locking the bone screw to the plate, the bore being coaxial with the central longitudinal axis of the recess;

With respect to claim 660, a plate with at least three bone screw receiving holes, at least three of the bone screw receiving holes being located at least in part within a countersunk region therebetween, the countersunk region having an interrupted perimeter, the perimeter having at least three convex portions and at least three concave portions; and

C

Art Unit: 3731

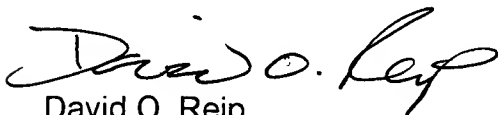

With respect to claim 690, a plate with at least three bone screw receiving holes, the central longitudinal axes of three of the bone screw receiving holes forming the corners of an isosceles triangle, the isosceles triangle having a centroid, and a bore adapted to receive a locking element for locking screws to the plate, the bore having a central longitudinal axis located at the centroid of the isosceles triangle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David O. Reip at (703) 308-3383. The examiner can normally be reached Mon-Thu and every other Fri from 7:00 AM to 4:30 PM.
